

## ACCOMMODATION RULES FOR GUESTS WITH PETS

- If the Guest brings a pet with the consent of the Host, he bears all responsibility for the animal's sound health and for any damage caused by the animal.
- Animals must be well-behaved, and guests must take care of their behavior with other guests. If required and needed, the dog (or other animal) has to be on a leash.
- The guest is responsible for ensuring that the pet cannot scratch the furniture, lie in the beds, or on the upholstered furniture. The dog's owner (or the guest who brought it) will supervise its behavior to avoid damage to the villa's equipment.
- Pet owners are financially responsible for all costs of repairing and replacing all items soiled or damaged by a pet.
- The guest must consider that the dog can not be around the pool area with other clients.
- The owner will provide all the necessary pet equipment. Bedding, towels, and other villa equipment must not be used for this purpose.
- Dog must not be alone without supervision (day/night), for example, in case the guest will be on the beach.
- Pets may not sit on beds, armchairs, chairs, tables, etc.
- Dog excrement in the garden must be removed by the guest; it cannot be left in the garden.
- The owner guarantees that he will clean up after his animals in all areas of the resort.
- In the event of damage, the host is entitled to use the financial security deposited at the start of the stay.

Thank you for accepting our dog rules.
